MOVE FOR PAVING IS STARTED HERE

MEETING CALLED BY MAYOR GARRETT LAST NIGHT.

MAY PAVE W. 3RD FIRST

Then on Grand Avenue to Park Entrance and Possibly West Fourth —Robinson to Investigate.

Preliminary steps were taken last night that may result in a paving program for Maryville in the near future.

Upon the invitation of Mayor W. O. Garrett, several property owners in West Maryville met at the city hall last night to discuss the paving question. Paving in general was discussed but particularly upon West third street from Frederick Avenue to Grand Avenue then on Grand Avenue to the entrance of College park. The question of paving West Fourth street from the Park to the College residence was also discussed.

Fred P. Robinson, one of the property owners present was delegated to investigate the cost to pave and to report in ten days. If the cost is found to be reasonable a drive will then be undertaken to see if all of the property owners are in favor. A canvass of the esntiment now seems strongly in favor of the building project.

Those attending the meeting last night were: Bruce Montgomery, Mr. and Mrs. L. M. Eek, M. A. Perry, Fred P. Robinson, Frank Cummins, W. A. Rickenbrode, Geo. McMurray, Mayor W. O. Garrett, Councilman, D. E. Hotchkin and the city attorney, Fred Harvey.

It is thought that all of the paving expense will be defrayed by the property owners although the opinion was expressed that the city should bear a third of the expense. The type of paving most favored is vitroid brick upon a four inch concrete with two inches of sand composition between the concrete and bricks. The surface would then be covered with a tar preparation to make it waterproof. It is thought that the pavement would probably be thiry feet wide as the drainage of the street now is for thirty feet. Most of Maryville's paving is only twenty-four feet wide.

Recreation Day Is Observed at College

"Recreation Day" is being observed at the College today. All classes were dismissed after 11 o'clock this morning. Several days ago, a proposition to go to Conception was submitted to the student body but on account of the extreme hot weather, it was decided not to go. There is no special program for today. The students are observing it as a holiday.

Lethel Gartin Wins Tennis Championship

Defeated Ora Mae Condon In Singles —Also Won Championship Last Spring and Summer Terms

In the girls' finals in singles in the tennis tournament now being played at the College, Miss Lethel Gartin defeated Ora Mae Condon yesterday afternoon by scores of 6-4 and 6-2. This contest makes Miss Gartin the individual tennis champion of the girls during the summer session. She won the championship last spring by defeating Ruth Miller and last summer by defeating Wave Hulet.

A GOLF TOURNEY FOR 4TH OF JULY

WILL SETTLE ARGUMENT OF IDENTITY OF BEST PLAYER.

1ST WARDERS DFFEATED

Golfers of Second Ward Humble Challengers Yesterday—A Tournament for Women the Fourth.

There seems to be some difference of opinion as to who is the best golf player in the Maryville Country Club, so the tournament committee has arranged for a handicap tournament July 4th, and thus settle this much mooted question for the time being.

The tournament will be a nine hole match, medal score, with par 37 as the basis for the handicap. A score card has been placed in the refreshment parlor of the Country Club, upon which all members should write their best scores so that the committee can fairly handicap each player. If a member has no score posted his handicap will be small to be sure that no one will have an unfair advantage.

The women's tournament will be played under the same rules as the men and the winner of each contest will receive three golf balls. In case of a tie the balls will be divided among the winners, and if more than three tie one ball will be given to each.

Each member of the Country Club should make an extra effort to play in this tournament. The grounds are now in splendid shape so that some very fine scores should be turned in. The game may be played any time during the day so that there will be plenty of time for all to complete the nine holes and go and see the wrestling bout in the afternoon.

Some time before the Fourth a set of ground rules, which must be strictly adhered to, will be published.

The golfers of the second ward defeated the first ward golfers yesterday afternoon at the Maryville Country Club with 19 strokes to spare. The following are the individual scores:

Second Ward: W. W. Wilson, 52; Clarence Vogt, 46; E. T. Dale, 49; totals 147.

First Ward: Eugene Yehle, 60; Sam McClurg, 51, R. C. Seals, 55, total 166.

Parsons to Clean Up Legal Profession

Challenge Is Issued to Barristers But Parsons Will Not Preach Them Out of Any Place.

The golfing ministers of Maryville, Cooper, Snodgrass and Allison, with L. A. Richman, one of the musical directors, to fill out the foursome, challege the golfing lawyers, to a match this week. In case the lawyers feel disinclined to accept or resort to the technicalities of legal delays and obstructions, the ministers will take on any other foursome of any profession.

The conditions of the match will be that the lawyers when defeated will protect the ministers if they should ever be arrested for speeding, both keeping them out of jail and from the payment of any fines.

On their part the ministers promise not to count the lawyers out of their match, as it is alleged was done in the lawyer-banker match, but feel it might be too much to ask that the lawyers expect the ministers to keep them out of anywhere.

OPEN AUDITORIUM PROPOSED FOR CITY

REV. R. E. SNODGRASS VOICES SUCH A NEED HERE

MANY COULD MEET THERE

Band Concerts, Churches and Other Organizations Could Use it— Built by Public Subscription

Maryville needs a municipal open air auditorium, a place for any open air meetings, patriotic, union church services, band concerts, chautauquas and the like. This was the opinion expressed by the Rev. R. E. Snodgrass, pastor of the First Christian Church, this morning in talking on the subject.

"Maryville now has no place for open air meetings in hot weather to adequately take care of a crowd," said Mr. Snodgrass. It seems to me that Maryville could lease for a number of years, or buy the ground for the erection of a place to care for these needs. It could have a permanent house and stage or platform attachment, with rooms necessary for robing, choir facilities and the like."

"More open air meetings would then be held," added Mr. Snodgrass, "such as musicals, lectures and other entertainments. It would furnish a more suitable place with seating facilities for band concerts. As it is now persons without cars are forced to stand during the concert."

Mr. Snodgrass was of the opinion that the cost should be taken care of by public subscription, with the active support of all churches, organizations and the public generally.

"I know nothing that the Chamber of Commerce could do that would be of a greater benefit to the city than to promote this in an active way and to have the backing of the churches, patriotic organizations, women's clubs, and the public generally," said Mr. Snodgrass.

He declared that someone or some organization would have to undertake it and suggested that the first step might be to get representatives of the various organizations to meet as a general committee to discuss the proposition.

"I would like to see the churches have union outdoor services each year during July and August," said Mr. Snodgrass, "But it is necessary to have a suitable place to meet. If everyone, accustomed to attending the evening services, attends the union services, it will take a large seating capacity to care for them."

As a civic improvement it would be well worth its cost, he said, for it is "Things like this that ad to the beauty and the good of a town; not for any selfish motive but a place of convenience and profit to the public."

Bellows Shorthorns at the State Fair

Will Exhibit a Group of Shorthorns— C. D. Bellows Is President of State Fair Board.

C. D. Bellows of Maryville, president of the State Fair Board and noted Shorthorn cattle raiser, has announced that he will exhibit a group of the Shorthorns for which his farm is famous at the cattle show of the Missouri State Fair, to be held at Sedalia, August 18 to 25. This is the first time for several years that Mr. Bellows has exhibited.

The Nodaway County animals will find themselves a part of an assemblage of the finest Shorthorn cattle in the world during fair week. The state is offering $2,015.50 in premiums for Shorthorns this year, as compared with last year's figure of $1,977.50; and indications promise, not only a longer entry list, but a better quality of cattle than ever before.

This year's total premium offerings for cattle amount to $14,157.50, while only $13,695 was awarded last year. Of the 1923 premiums, $7,770 is offered in the department for beef cattle and $6,387.50 for dairy breeds.

Mr. Bellows reports much enthusiasm for the fair in his section. "I think prospects are very good for a good attendance this year from our part of the state. Our crops are coming on fine with small grain and hay exceptionally good," he says.

Nodaway County Catholic Day Sept. 23

Fifty Priests From All Parts of Diocese in Retreat at Conception Abbey.

On June 25, exactly fifty priests from all parts of the diocese of St. Joseph, with Bishop Gilfillan at the head, went into retreat at Conception Abbey. It is preached by a Passionist Father from St. Louis, and will end Friday morning.

Before its opening it was decided to hold the Nodaway County Catholic Day on the fourth Sunday of next September. On that Sunday it will be fifty years that the late Abbot Frowin, in the name of the Benedictine Order, took formal charge of the parish, having arrived at Conception Thursday before, Sept. 18.

TELLS ABOUT SOUTH AMERICAN PEOPLES

DR. GEORGE M. McBRIDE TALKS TO COLLEGE STUDENTS.

CRUDE FARMING METHODS

Are Used in Bolivia, He Says—People Still Use Oxen and Plow With Forked Stick.

The peoples, topography and general conditions in the central countries of South American were described by Dr. George M. McBride of the University of Southern California in an address at the State Teachers College this morning.

Dr. McBride taught for five years in Chile and eight years in Bolivia. He did three years' research work at Yale University and received his doctor's degree there. He was with the American Geographic Society for nearly eight years. This summer, he will give a special series of lectures at Columbia University, New York City.

Dr. McBride lectured on "The Trail to Lake Titicaca." This lake is located in the heart of Bolivia, over a hundred miles from the coast and has no outlet to the ocean.

His lecture this morning dealt with what he calls "human geography"—that is, the effect of environment upon man.

The peoples of Bolivia and their habits were related to the students this morning. The residents of this South American country live in an altitude over 14,000 feet above sea level and have adjusted themselves to this life through the aged. Llama and aoudad are the prinicpal wool producing animals, Dr. McBride said, and the very finest of wool is obtained from them. The people use very primitive methods in manufacturing woolen products.

Farming methods are very crude, Dr. McBride said. The people still plow with the forked stick and use oxen. The women bring farm products to town and sell them in the market place, crying out their wares to passersby.

"The churches of Bolivia are the finest examples of masonry in the world," continued Dr. McBride. "They are made with the finest quality stone and will doubtless stand through the ages to come. The religious life of the people is very fine.

"Bolivia produces about one-third of the tin of the world," Dr. McBride continued, "and is also rich in gold, silver and copper. White men are going in to mine the precious meals."

The Bolivians are very friendly toward the United States, he said, and the American school system has been adopted there. The Boy Scouts have a wonderful organization and this movement is progressing throughout the country, the speaker said.

Services for Miss Fouth Held at Quitman Today

Funeral services for Miss Maude Fouth, who died at her home in Quitman, yesterday were held this afternoon at the Methodist church in Quitman. Miss Fouth was about forty-four years old and has been ill for some time. Miss Fouth is survived by her father and mother and two sisters, Miss Mae Fouth and Mrs. Gus Bowman, and two brothers, Will and Al Fouth.

Funeral services were held this afternoon at the Methodist church, conducted by the Rev. Taylor of Quitman. Burial was in the Quitman cemetery.

Mrs. Tom Farrell of Burlington Junction was in Maryville today.

BIG DAMAGE IN ELECTRIC STORM

HALF MILLION DAMAGE IN VICINITY OF NEW YORK.

HIT FRANKLIN SCHOOL

Damage to School Estimated at $500— 1.45 Inch Rain Here, Telephones Crippled, Crops Uninjured.

Maryville residents were awakened about 1 o'clock this morning by a violent clap of thunder and greeted with a very heavy downpour of rain generously interspersed with lightning and accompanied by a strong wind. It rained 1.45 of an inch and lowest temperature was 59 degrees, according to Weather Observer Brink.

At the Franklin ward school building on North Main street, lightning struck the double chimney splitting it half way open about two-thirds of the way down. The hole in the flue was about two feet wide at the widest place. The damage was estimated at $500.

Considerable damage to telephones has been reported as a result of the storm. Harry Todd of the Hamamo Telephone Company, said that quite a little damage to fuses and drop wires in the neighborhood of the Franklin school. Long distance wires were down, the office here being able to call only Stanberry and Hopkins this morning, but communication was established with St. Joseph this afternoon. The lines to Kansas City were stil down. The Farmers Telephone Co. report very little trouble in the county, Graham being the only town they couldn't ring. All towns in the county reported heavy rains, but no hail and not much damage to crops as far as they had heard.

Roy A. Kinnaird, county farm agent, said this afternoon that he didn't think that the crops of the county had been damaged.

Joe Coffey Lauds Paul Martinson

Says He Will Give Eustace a Real Match Here July 4—Seat Sale To Start at 9 O'Clock Tomorrow

Joe Coffey, the famous wrestling authority and promoter, has written Edward W. Gray complimenting the American Legion on securing the Eustace-Martinson match to be staged here July 4. Coffey has managed two world's championship wrestling matches, and has the following to say about Martinson:

Paul Martinson, alias Hindu Killer is recognized as one of the best wrestlers in America today. He has defeated such men as John Freberg Swedish Champion, Joe Stecher of Dodge, Nebrasko, Orlando-Linow and 2 hour draw with Ed Lewis and hundreds of other great wrestlers. He has a draw to his credit with Allan Eustace, and is confident of defeating Eustace when he meets him on July 4th in Maryville, Missouri. He is training hard and faithfully and expects to be in good condition when he takes hold of the Kansas champion to settle supremacy once and for all.

His name as the "Hindu Killer" was given him some years ago when an English promoter by the name of Benjamin brought two Hindu champions to this country to meet the best of the American wrestlers Frank Gotch, who was then the world's champion refused to meet either of the Hindu champions, Yussif Mahmout, the Terrible Turk, and Stanislaus Zbyszko also refused to meet either of the Hindu champions; Martinson was finally matched with them and defeated both decisively. He has likewise defeated other high class wrestlers and is ever ready to wrestle any man worthy of his ability. The tougher they are the better Paul likes them.

If Eustace is in good condition, he ought to make a worthy opponent for Martinson and this should prove a wonderful contest to witness.

The seat sale for the Eustace-Martinson wrestling bout will start at 9 o'clock tomorrow morning. A canvass will be made of the business district and it is expected that the ringside seats will be disposed of quickly. Martin Lewis, Jr., is in charge of the seat sale.

Twenty-Five Examined at Quitman Yesterday

Was Best Conference Held So Far This Year, Dr. C. P. Fryer Said This Morning

Twenty-five infants, pre-school and school children were examined at the health conference held at Quitman yesterday. This was the best conference which has been held so far this year, Dr. C. P. Fryer said this morning. About fifteen mothers were present and also ten other women interested in health work. The physical condition of the children was exceptionally good, Dr. Fryer said. The weight and measurements were up to standard.

A parent-teachers association may be formed in Quitman this fall and this association will co-operate with the health department.

DECLARE MARTIAL LAW IN OKLAHOMA

GOVERNOR WALTON CALLS OUT NATIONAL GUARDSMEN

LAWLESSNESS IS REASON

Gov. Walton Fears General Spread and Declares Local Authorities Can't Handle Situations

Oklahoma City, June 27—Gov. "Jack" Walton of Oklahoma, in characteristic fashion, today set his foot down upon mob violence.

Banging his fist upon his desk the picturesque executive vigorously asserted that eh would stop mob lawlessness in the Sooner State if he had to declare martial law in every county and "maintain it for three years."

This statement followed the dispatch of state troops to Oklahoma counties where the executive says authorities have been unable to cope with the situation.

Governor "Jack's" next action was to wire Kaddo County authorities that he would send additional troops there the next time a whipping was reported. There have been two recent floggings there, it is said.

Further action along this line by Governor Walton appears eminent. National Guard units of infantry and machine guns have been sent to Muskogee to augment the local military forces there.

Earlier explanations of Governor "Jacks" action in supplanting the sheriff's forces was that he was dissatisfied with law enforcement conditions there.

"This is only a partial reason," he declared today. "The principal trouble is with mob lawlessness. I am not ready to announce all of the information that has been placed in my hands. We are still working on the case. I don't know how long it will be necessary to keep troops in Oklahoma County, but I will keep them here three years if it takes that long to restore complete order."

The situation is rapidly approaching a climax.

Okmulgee, Okla., June 27—Five-hundred national guardsmen placed Okmulgee County under martial law early today by order of Governor Walon, who declared that the city an dcounty authorities had shown themselves unable to cope with "lawlessness which may burst into flame."

The Governor's action followed the receipt of information that the County was being terrorized by secret organizations which have taken the law into their own hands and embarked on a campaign of intimidation. A local minister and two other citizens of the town are asid to have taken the lead in appealing to the Governor for protection.

U. S. SETS TAX CUTTING RECORD

—Says President Harding.

IN HIS ADDRESS IN SALT LAKE CITY LAST NIGHT.

PRAISES BUDGET SYSTEM

And Gives It Credit for Tax Reduction—Strikes at Extravagance —12,000 Hear Him.

Salt Lake City, Utah, June 27—President Harding outlined here last night what the federal government has accomplished in decreasing taxes and the public debt and made a plea for action along similar lines by the states, municipalities and counties.

The executive said the federal government is "diligently seeking to prove itself a helpful example" in removing what he characterizes as the menace of mounting taxes and growing public indebtedness, but added that this was not alone a federal problem, that "improved order must come into the units of government into which the federal government never intrudes."

Mr. Harding did not take up in his address any contemplated administration program for tax revision in the coming year. He did say, however, that the federal government was working under a program which "involves extiguishing a half billion of the (public) debt each year" and asserted that the payments which the British-American debt settlement "will correspondingly relieve the burden upon American taxpayers."

Made Record Cut

The President declared no other country in the world had been able to make such a record in public debt reduction as had the United States. Pointing to a reduction of more than one half in federal taxes during the past two years as compared with the war loan peak in 1920, he declared this was the "record of business administration to which the party now in control of the administration feels justified in referring with no small measure of satisfaction."

All Must Face Debt Problem

"Keep your eye everlasting on those who administer your governmental units for you; your town your county, your state, your national government. Make them understand that you are applying the rule of thrift and savings in your personal affairs, and require them to apply it in their management of your public affairs. If tehy fail, find other public servants who will succeed. If they succeed, give they such encouragement and inspiration as will be represented by a full measure of hearty appreciation for their efforts."

Tabernacle Jammed

The Mormon tabernacle which seats 12,000 persons, was jammed to the doors to hear President Harding speak.

Thousands more were gathered outside on the Tabernacle grounds to hear the address by means of voice amplifying apparatus. The assembly hall nearby in the Temple grounds likewise was comfortably filled.

In leaving here after the tabernacle address, the presidential party will travel into southern Utah to spend tomorrow in Zion park, the first of the three national parks to be visited by the president during his trip. Tomorrow evening members of the party again will board the train and turn northward to spend Thursday in Idaho, with stops to be made at Pocatello and Idaho Falls.

Ruhr Must be Evacuated, Says Pope Pius II

Rome, June 27—Pope Pius 11, today sent a message to Cardinal Gasparri, papal secretary of state, dealing with the Ruhr issue and suggested that the allied powers substitute osme form of guarantees for the German reparation payments other than military occupation of the Ruhr Basin.

"Only after evacuation of the Ruhr can pacification be reached," the communication said.

Mr. and Mrs. Theodore Gray of Pickering were business visitors in Maryville yesterday.

1100 Students Attend Fort Snelling Camp

Donald H. Dowell Is There—Twenty-eight Universities, Colleges and Prep Schools Represented

Approximately 1100 students representing 28 universities, colleges and preparatory schools of the Middle West arrived at Fort Snelling, Minn., June 14, for six weeks' military training in the annual summer camp of the Reserve Officers' Training Corps.

The purpose of these camps is to round out by pracitical means the training which these young men receive under the supervision of Army Officers in the various education institutions which they attend. The ultimate object to be attained by this sort of training is to create a corps of well trained reserve officers who with some additional training will be available for service with our Army in the event of another emergency. This method of obtaining a corps of trained reserve officers is in accord with our traditional military policy which provides for a small army of professional soldiers and a large reserve of citizen officers and soldiers.

The schedule provides for training in almost every branch of military work. While the majority of the students will receive training in the Infantry branch, instruction will also be given in the Engineer, Medical, Dental, Veterinary and Motor Transport branches.

The states represented in this years' camp are Minnesota, Iowa, Kansas, Nebraska, North Dakota, South Dakota, Missouri, and Arkansas. Maryville is represented this year by Mr. Donald H. Dowell.

Shenandoah Country Club Invited Here

Invitation Sent To Iowa Club To Spend Day On Maryville Golf Links—Date To Be Set Soon

The members of the Southmoreland Country Club of Shenandoah have been invited to spend a day at the Country Club in Maryville. An invitation was extended to the Shenandoah club on behalf of the Maryville Club by Lloyd Heifner, secretary. The following is from the Shenandoah Sentinel-Post:

The members of the Southmoreland Country Club have been invited to spend a day on the golf links of the Maryville, Mo., Country Club, the date to be set by Shenandoah.

When Maryville was planning a club, Shenandoah staged "a day at golf" for the Missourians, an event which was greatly enjoyed and the guests who have since perfected a new club are anxious to return the hospitality and "show" the Iowans.

The following letter from Lloyd B. Heifner, secretary of the Maryville Country Club has been received by R. K. Tindall, secretary of the local club: " As secretary of the Maryville, Mo., Country Club, we issue your club an invitation to come to Maryville any time and bring as many members as possible and give us a chance to return the hospitality shown us at your club."

The invitation has been accepted and R. J. Ritchie, president, has appointed H. E. Ralston, a former resident of Maryville, as chairman of the committee to set the date and get up the party of Shenandoah golfers.

A PLEASANT PLACE FOR GENTLE FOLKS.

The Ideal Two Weeks' Vacation

COLORADO

The Low Cost of the Trip Will Surprise You

If your time is limited—

If you want to crowd into two weeks, perhaps the maximum vacation enjoyment—

Go to Colorado—

Colorado is as big as all New England, with Indiana added; two-thirds is mountainous—100,000 square miles contain 155 peaks that are more than 13,000 feet high. Within the state there are 500 lakes—large and small; 6,000 miles of running water. Mineral springs abound—no one knows how many there are. Every railroad line is an excursion line; motor highways radiate in all directions.

Obviously, in such a region, vacation possibilities are unlimited. Here, whatever your age, or means, or preferences, you'll find your vacation "as you like it."

Where to go? There are a thousand different places! When to go? Any time! This summer, when you're tuckered and seeking escape from the heat and dust, get out under that magnificent cool blue Colorado sky, get the tang of the mountain air and the spicy smell of pine in your nostrils, and you will not have to ask anyone whether it was the right thing to do.

How to go? Oh, just climb aboard a Burlington luxurious limited! Colorado is not "Way off yonder," as some people think. The journey there is both quick and pleasant.

If you desire to continue on to the Pacific Coast and return via an entirely different route, that's easily arranged.

PRESIDENT HARDING IN THE WEST.

President Harding's trip through the country has given the people something to think about and he has no doubt learned enough at first hand to keep him thinking for some time to come and to help him think correctly. A president is generally handicapped on such occasions by being surrounded by a limited number of political satellites and official bootlickers who want to make him feel that everything he says and does is the voice of the people and do not have the courage generally to correctly interpret to him the public sentiment when it does not agree with his pronouncements.

No greater service could be rendered a man in high position anxious to know the truth than to tell him in plain words how the people feel in the various communities of the country—not the politicians nor the office holders—but the electorate from the grass roots. In Kansas he went out into a wheat field to learn from first hand why the farmer is not satisfied. He may have been surprised to learn that the high cost of transportation, which enters also into the cost of seed, implements, etc., reduced the market quotation of $1.25 on wheat down to 85 cents actually received by that farmer for his wheat. He may have gotten a new idea of the wonderful benefits the high tariff exponent of the manufacturing regions would give the farmer by protecting his crops against foreign competition when he must sell his surplus abroad, but there is little opportunity for a president on a hurried trip to get to talk with the actual producer or the average business man.

The people of this great Middle West will agree with what he had to say about the improvement of the waterways but they will not agree with his ideas of railroad consolidation. This nation wide plan to consolidate the railroads of the country into regional groups or systems does not look good to the people of the Middle West. The railroads were built and developed under fierce competition when it took brains and initiative and the country was rapidly developed under this competitive development. To hook up all the railroads of a certain section of country into one system with a bureau in Washington fixing passenger and freight rates and another bureau in Washington fixing wages promises mighty little satisfaction or service for the people of that particular section of country. It smacks too much of an effort to help out the financiers who have invested in the weaker and less successful roads by forcing the more successful roads to hold them up.

The President's stand on law enforcement must appeal to all good citizens who place good citizenship above private considerations. As long as a law is a law of the land, it should be enforced and no state has a moral right to shirk its duty and its obligations.

His bold stand for a membership in the world court appeals strongly to all who want to see lasting world peace and to those who love courage of conviction. His position, however, is considerably weakened by his evident desire to appease the opposition of the "bitter enders" against the league of nations. His effort to sugar coat the pill for the Borah's, Johnson's and Lodge's of his party may make it impossible for many others to swallow.

Late Telegraph News

Omaha, Neb., June 20—Bootleggers here are very formal; they have a committee and everything, and they also shoot on "eyesight."

Such was the information contained in a threatening note received by General Prohibition Agent Bob Samardick of this city. The missive warned the prohibition operative to drop 48 cases now pending against bootleggers here, and threatened his life if he failed to follow instructions.

The note follows:

"We put your nigger in a cage. Don't you try to prosecute those cases further and you stay out of South Omaha. Old folks are hard and the committee will kill you on eyesight—Bootlegging Committee."

The first sentence, Samardick explained, evidently referred to a negro informant of his.

The dog recently disappeared from the McCracken home. A few days later, McCracken received a telegram from the former owner at Monett, saying the hound had showed up there. Before the former owner received a telegram from McCracken to ship "Rowdie" back, the dog had completed his visit and started back. It wasn't long before he put in his appearance at the McCracken home.

Chinch Bugs are not Numerous in County

Have Been Several Reports Of Presence In Wheat Fields—Can Be Prevented By Dust Mulch

Chinch bugs are not numerous in Nodaway County, R. A. Kinnaird said this morning. However, there have been several reports of their presence in wheat fields. They can be prevented from entering the corn by taking a lister and making one or two furrows between the corn and wheat field and then dragging a log along the furrows to stir up a dust mulch. The bugs are unable to cross this mulch.

Kinnaird says that chinch bugs can also be prevented from spreading by mixing a strong stock dip with crude oil in a proportion to one gallon of dip to ten gallons of oil. This mixture should then be applied to a narrow strip of the furrow. This creates fumes which will prevent the bugs from crossing the furrows. It should be applied every few hours.

Card of Thanks.

We desire to extend our heartfelt thanks to our friends for the kindness and sympathy and for the floral offerings at the death of Mrs. George Stone.

BARGAINS In Used Talking Machines

We have several used talking machines which we are anxious to move and in order to sell them quickly we are offering these machines at ridiculously low prices. All of these machines have been thoroughly overhauled and are in the best mechanical condition—they look and play like new ones.

One $135 Silvertone, with 45 records $70.00
One $150 Marvelon, with 31 records $110.00
One $175 Columbia, with 24 records $80.00
One $200 Playerphone, with 29 records $105.00
One $175 Sonora, no records $165.00

These machines are priced to sell NOW, so don't neglect investigating, for they are all real bargains.

Methodists' Rome Plans Start Row

Rome, June 26.—American Methodists are threatening the peace of mind of Rome.

The American Methodists propose to build a large international college for boys upon Monte Mario, one of the most conspicuous sites in Rome, overlooking the Vatican.

The Roman Catholic press has challenged this selection of a site as a challenge to the Papacy in its own home. The Methodists reply with the statement that they have no intention of building upon that portion of the site which immediately overlooks the Vatican.

Meanwhile the General Assembly of the President of the Catholic Associations of Rome has passed a motion denouncing the proposed building as "insulting to Catholicism, to Italy, to the city of Rome, to history, and to art," and expressing the hope that the Government and the Royal Commissioner of Rome will intervene.

It seems that the grounds where the German Emperors of the Middle Ages pitched their tents will become the battle ground of a new controversy.

Harmony

A fairly good congregation attended the morning services last Sunday, tho many families of the community were not represented. The newly organized male quartet rendered a selection at the morning hour. The topic of the sermon was "Help From the Hills," and the necessity for the uplift in life was emphasized. The C. E. meeting in the evening was led by Miss Leatha Lawson and the lesson was Friends and the Benefits of Friendship. Next Sunday afternoon our young folks will take part in the Young People's Council at Ravenwood.

Mr. and Mrs. John Anderson and family were visiting her mother, Mrs. Benton Wilson, at Stanberry last Sunday.

Guilford McKee delivered a couple of loads of hogs at Ravenwood last week. He had the misfortune to lose one of the largest while in transit.

Bonus Unclaimed by 119 Claimants

Jefferson City, June 27.—Up to and including June 20 there were 119 soldiers, sailors and marines who served in the European war from Missouri and were awarded bonuses but have never claimed what is coming to them. The adjutant general's department has sent checks to every one of them and the postal officers have tried their best to locate them, but to no avail. So far as the state department knows, they have dropped off the earth. Their money, however, is still awaiting them, when proper proofs as to their identity are given.

DELEGATION WENT TO MOUND CITY YESTERDAY

FRED HULL WAS SPEAKER

And Introduced as Gubernatorial Timber—Talks by Yehle, French, and Todd—Mound City is Paving

At a meeting held in Mound City last evening for the purpose of organizing a Chamber of Commerce for that city, J. F. Hull of this city, who was one of the main speakers of the evening, was spoken of as a probable candidate for governor. Judge A. M. Tibbles of Mound City, a speaker at that meeting, referred to the days when he and Mr. Hull were boys together at Grant City, and told of the advancement and progress made by Mr. Hull and of the frequent mention of his name as a candidate for governor.

Mr. Hull in his remark said he was not a candidate for governor. He told of the needs of a Chamber of Commerce for a town the size of Mound City and the many problems to be worked out and solved by such an organization for development of that community.

The other members of the Maryville delegation, who attended the meeting at Mound City, C. W. Yehle, Fred French and James Todd, also made a few remarks.

The meeting at Mound City was held in its fine fire-proof school building. Preceding the speaking, a fine dinner was served. Roy Carter presided as chairman of the meeting. After the speeches, an organization was formed along the lines of the Maryville Chamber of Commerce.

Mound City is paving several blocks at present. She has many miles of paving. Maryville would do well to follow Mound City in its paving program.

The Maryville men were royally entertained and it is to be hoped the Mound City men will be able to attend a Chamber of Commerce meeting in Maryville soon.

Paris Sails, Loaded "Medical Supplies"

New York, June 27—The French liner, Paris, left here today technically dry but actually carrying twelve thousand pints of wine and liquors. The liquor and the wine were passed by the authorities here as "medical supplies." Thirteen kegs of beer were dumped overboard and almost four thousand bottles of wine were carted away to government warehouses while the liner lay docked here. The Paris carried this wine and liquor into New York under government seals.

Six other vessels are waiting here with excess liquors, and several more are expected this week. Dr. E. K. Sprague, United States public health officer here, woh issues permits for medicinal liquor aboard foreign liners, opened today a special office in the custom house to facilitate this work.

Golf Pointers

What are the commonest causes of pulling or hooking?

Answered by
BOB MacDONALD

Veteran tournament player, winner of the Metropolitan open championship, 1921, and the Texas open championship, 1922. Famous the world over for his long distance driving.

Pulling or hooking is usually caused by faulty wrist motion that is the result of the left elbow being held too high at the top of the swing. The left forearm, if correctly held, is a part of a direct line from the right shoulder to the ball. I have noticed that the player who looks for a pull or hook usually gets what he is looking for and encourages the fault instead of breaking it.

Power of American Dollar Is Greater

Washington, June 27.—Because of he general decline of prices of many commodities, the power of the American dollar is now 2 cents more than a month ago, it was announced by the Federal Reserve Board in compiling a review of general business conditions in the United States.

The continued heavy production of basic materials in addition to full employment and good wages points to a favorable industrial situation. The buying strength of the American people is now being exerted at the maximum. Despite seasonal changes, production and shipment of goods by factories continue in heavy volume.

Acts of General Assembly in Force

The new laws enacted by the fifty-second general assembly, in session at Jefferson City from January 3 to the middle of last March, became effective Monday.

The moonshiner and armed booze runner may be given a penitentiary sentence in the state court under the new McCawley law. The measure also compels soft drink places to remove screens obstructing a clear view from the street.

A Dry Law Helps Cities

Another dry law would permit Maryville or any other town in the state to enact ordinances to punish the manufacture, sale or transportation of intoxicating liquor.

One outstanding law passed at the last session permits the highway department to speed up the state road program so it may be completed by 1927.

Fifty-Fifty For the Women

For the women, possibly the most interesting law is the "fifty-fifty" act, giving women equal representation on all city, county and state committees of both political parties.

Following are some of the more important new laws effective yesterday.

Providing a fine and jail sentence for selling adulterated milk and limiting the use of word "butter" in the sale of substitutes.

Permitting the county courts on petition to levy a special tax to maintain county hospitals.

To prevent forfeiture of life insurance policies on which three or more permiums have been paid.

State insurance commissioner may consider administration expenses and investment profits in fixing rates for stock fire companies. This is to aid the commissioner in present litigation to reduce fire rates in Missouri 10 per cent.

Re-enacting the law in effect two years ago requiring candidates for physicians' license to be graduates of a "reputable" medical school.

A law enacted largely at the request of hospitals in St. Louis and favored by many physicians lowering the educational qualifications for nurses, fixed in the law of 1921; also doing away with attendants.

The hawthorn blossoms or red haw is made the state flower.

A new blind pension law fixing more stringent qualifications for those to receive pensions.

Requiring railroads to furnish stock cars within ninety-six hours after written application is made, and providing penalty to be paid shipper for each day the railroad is in default.

Amending law of 1921, admitting farm organizations to grain exchanges, so that members of farmers' organizations shall not be liable for debts contracted, an alleged joker put in the former law.

Declaring poultry and egg exchanges to be public markets and opening its membership to outsiders, particularly co-operative farm organizations.

Permitting stock cars to be stopped once in transit for partial loading or unloading.

Witness fee of persons attending court in another county increased to $2 a day.

A fine of $10 to $100 for dealers selling short weight coal; dealers shall provide driver with ticket showing correct weight.

Permitting eleven or more persons to organize non-profit, co-operative marketing associations for the handling of agricultural products.

Tractors Revolutionize Farming in Near East

Production Is Greatly Increased—No Famine This Year—Natives Released For Industrial Work

Over in the Caucasus of Asia Minor the Fordson Tractor is more than a power plant—it is a land redeemer and a life saver.

There in the shadow of Mt. Ararat, famed resting place of Noah's Ark., it is the twentieth century missionary to teh oldest land in the world and brings the most striking of all contrasts between modern power farming and the primitive methods in vogue for thousands of years.

Introduced in the Caucasus a little more than a year ago by the Near East Relief, the Tractor has revolutionized agriculture and there is no famine this year.

With the Tractor and modern farm machinery the fields, heretofore only scratched with the historic stick and oxen teams, have been plowed deep and with less seed have yielded greater crops than ever before. Hundreds of natives, too, have been released from farm work to enter industrial pursuits.

A recent note from Erivan, Armenia tells the story of tractor accomplishments in striking figures:

"Ten American tractors ploughed a thousand acres of land in eleven days," the message said. "To accomplish the same work in the same time would have required 1,000 oxen and 500 men."

Under power farming the crops in the Caucasus have been 50 per cent larger and one-third less seed has been used. Where Armenia only a short time ago, with eighty per cent of its population engaged in agriculture, was only producing one-third of its cereal requirements, it is today producing about one-half with far less men employed in the work.

The Near East Relief is now using eleven Fordson Tractors.

With gasoline power, fed by the rich oil fields of Baku on the Caspian Sea and with modern machinery, the Caucasus promises to accomplish one of the most interesting agricultural developments in the history of the world.
